PROJECTS

Rush-Minute

- On the regular basis problem of urgent needs of stationary items for students and collage faculties, the project defines stationery shopping by connecting users with nearby stores. Order exactly what user needs and get it delivered in minutes, all while supporting local businesses.
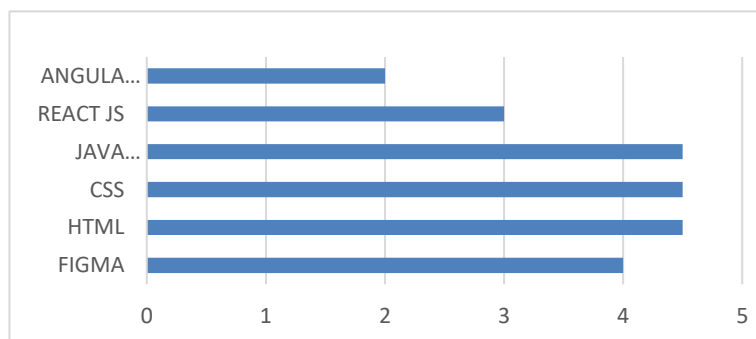

Swift-send

- This project connects with a network of users in the city. As a requester, you can post anything you need delivered – groceries, forgotten items, even a last-minute urgent things. As a deliverer, you can pick up these requests and earn money for completing deliveries on your own schedule.
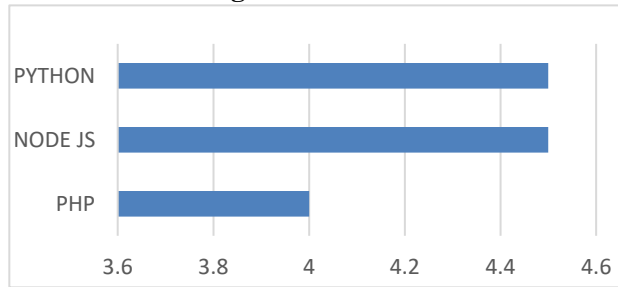

Online billing System

- The online billing system offers a user-friendly platform specifically designed for bulk buyers and wholesalers. This system seamlessly manages your store inventory, allowing you to add, update, and delete stock with ease.
